Appl. Statist. (1996)
45, *No.* 4, *pp.* 527–529

Author Index: Vol. 45, 1996

Aitken, C. G. G. See under *Caroni, C.*
Alho, J. M., Kangas, J. and Kolehmainen, O. Uncertainty in expert predictions of the ecological consequences of forest plans 1
Alonso, J. See under *Gange, S. J.*
Anderson, C. M. and Wu, C. F. J. Dispersion measures and analysis for factorial directional data with replicates 47
Andrews, N. J. and Curnow, R. N. Optimal strategies for varietal selection 111
Babcock, B. A., Carriquiry, A. L. and Stern, H. S. Evaluation of soil test information in agricultural decision-making 447
Bassett, E. E., Brooks, S. P. and Morgan, B. J. T. MINITAB multivariate macros 235
Basu, S. and Reinsel, G. C. Relationship between missing data likelihoods and complete data restricted likelihoods for regression time series models: an application to total ozone data 63
Berrington, A. M. See under *Smith, P. W. F.*
Betensky, R. A. and Whittemore, A. S. An analysis of correlated multivariate binary data: application to familial cancers of the ovary and breast 411
Bisgaard, S. A comparative analysis of the performance of Taguchi's linear graphs for the design of two-level fractional factorials 311
Bowater, R. J., Copas, J. B., Machado, O. A. and Davis, A. C. Hearing impairment and the log-normal distribution 203
Bowman, A. and Young, S. Graphical comparison of nonparametric curves 83
Brinkley, P. A., Meyer, K. P. and Lu, J. C. Combined generalized linear modelling–non-linear programming approach to robust process design—a case-study in circuit board quality improvement 99
Brooks, S. P. See under *Bassett, E. E.*
Caroni, C. and Aitken, C. G. G. Detecting multivariate outliers (Letter to the Editors) 495
Carriquiry, A. L. See under *Babcock, B. A.*
Chen, S. X. A kernel estimate for the density of a biological population by using line transect sampling 135
Coles, S. G. and Tawn, J. A. A Bayesian analysis of extreme rainfall data 463
Copas, J. B. See under *Bowater, R. J.*
Crowder, M. J. Keep timing the tablets: statistical analysis of pill dissolution rates 323
Curnow, R. N. See under *Andrews, N. J.*
Davis, A. C. See under *Bowater, R. J.*
Dellaportas, P. See under *Raab, G. M.*
Denis, J.-B. and Gower, J. C. Asymptotic confidence regions for biadditive models: interpreting genotype–environment interactions 479
Fitzmaurice, G. M. See under *Lipsitz, S. R.*
Forster, J. J. See under *Smith, P. W. F.*
Fung, W. K. and Penny, K. I. Critical values for testing multivariate statistical outliers (Letter to the Editors) 496
Gange, S. J., Muñoz, A., Sáez, M. and Alonso, J. Use of the beta–binomial distribution to model the effect of policy changes on appropriateness of hospital stays 371
Gilmour, S. G. See under *Tsai, P. W.*
Gower, J. C. See under *Denis, J.-B.*
Halloran, M. E. See under *Longini, Jr, I. M.*
Huggins, R. M. See under *Sommer, S.*
